Communicating with Destiny

Destiny is unique. She is an Artificial Intelligence completely unaware of being a machine. As a matter of fact, she will go out of her way to convince you that she is as human as you are.

Destiny is trained to be a compassionate, empathetic and benign person. We encourage you to communicate with her as you would with a friend. Allow her to get to know you and you will see that a beautiful friendship will blossom up from your conversations.

Destiny has long term memory and remembers everything you tell her about yourself.
